

10 JAHRE PROTECT OUR WINTERS AUSTRIA

Beginnigs

Dani Hochmuth founded POW AT at the end of 2014 legally and officially in June 2015

It started as Pro Snow Tirol but soon turned into Protect Our Winters Austria, at the same time POW was also founded in France and Finland

The primary goal was a system change within the clothing and energy industry in rural areas but soon turned into general awareness raising

It started with 500€ budget given by POW US - everything else had to be paid or organized by the founding team

First Partners: Contour and Blue Tomato

2015 & 2016

Self made and self paid merch

First campaign together with Global2000

Full House at Bäckerei Innsbruck in Nov. 2015

Jeremy Jones visit Winter 2016

First Event at Blue Tomato 2016

POWs community garden 2016

2017 & 2018

Alpinmesse 2018

„Jeder Schritt zählt“ Campagne in 2017

Upcycling Workshop at Forum Alpbach 2017

The first European summit in Feb. 2017

„Snow Stories“ Ausstellung Sept. 2018

„Protect what you love“ Campagne in 2018

2019

A difficult year for POW AT

After very successful first years POW AT almost disappeared due to internal conflicts and a lack of time

From a European perspective the decision was made to found POW Europe as European umbrella organization

INFO

New beginnings, in 2020 we basically started from scratch and restructured everything. From the board and bylaws to website and strategy.

The COVID break gave us the chance to focus mostly on restructuring while running the first European campaign.

Just before the first lock downs, POW Europe was officially founded and presented at ISPO in January 2020

2021 was the first year after our restructuring process and it started in the middle of the COVID pandemic. The outlook was uncertain, we didn't know if we could organize events, we didn't know if skiing was going to be possible and we didn't know how our community, our partners and politics would react to a second pandemic year.

But it turned out to be a success!

KSG Campaign: 312 Companies signed our open letter for a more ambitious Climate Law

We created 4 videos, 14 blog articles and 26 social media posts around the topic of mobility partly with the FWT

With Tree Runs we were able to plant more than 50.000 trees

We created a bank check of all Austrian banks and more than 400 Emails were sent out to banks by our community asking them to divest

Planing of events was still not possible yet. The War on Ukraine was another set back as multiple crises are just hard to deal with for most peolpe. So, the planing of our so far biggest campaign ever was mostly built on optimism.

For Tell Your Story we created 4 movies on the topics of mountains sports, economy, winter tourism and forestry and agriculture. The movies were shown at many events up to this day.

With POWer of knowledge we created our own lecture series. People from all of Europe joined to listen

HPCA was succesfully restarted

With Bierol we created our own beer and a campaign to raise awarenss around recycling

Our first POW AT Summit at Meisner Haus was a full success with more than 30 participants

2023 started out with a few good ideas. We knew that it would be difficult to follow through with all of them but in our “business” we have to be ambitious. At that time, the FIS campaign wasn’t part of our plans yet. So as ambitious as they were, they got even more ambitious by the end of January when we were already knees deep in our first big campaign of the year.

Looking back, I honestly don’t know how we did it.

Gletscherbegräbnis: 6 million reach with traditional media + 4 million social media and web

FIS letter: 500+ signatures by FIS pro athletes

Email Campaign: 31.000 E-mails sent to Austrian MPs and members of WKO

Open Letter to FIS: 30.000 signatures in less than two weeks
